## EMERGENCY FIRE DUMP STATION FOR AMMONIA

This station is required by some local Fire Codes. The incoming line are to have no valves between the vessel and the station. This piping should be placed in a lockable box and remained locked at all times to prevent anyone from tampering with the system. Check with your local Fire Chief before installing this type of system.

The technical data in this document is based on information believed to be accurate. Nothing contained herein should be considered a recommendation for the use. All risk of liability rests on the user of the data. Always check with State and Local Codes before designing.
